

SmartBuild – House Construction Requirements

Sample PDF for testing the optional Project Document upload.

Project	Modern 2BHK House Construction in Coimbatore
Category	Residential Construction
Budget	■12,50,000
Timeline	3 to 6 months
Location	Coimbatore, Tamil Nadu, 641048
House / Plot No.	Plot 24
Area / Landmark	Peelamedu, Near PSG Tech

1. Project Requirements

Construct a modern 2BHK independent house on a 2.5 cent plot. The house should include a living hall, modular kitchen, two bedrooms with attached bathrooms, one common bathroom, and a small porch.

2. Design Preferences

Modern elevation, good natural ventilation, adequate natural lighting, practical room layout, and durable finishes suitable for residential use.

3. Work Scope

Civil construction, foundation and RCC structure, masonry, electrical wiring, plumbing, flooring, painting, doors/windows, kitchen work, bathroom fittings, and basic external works.

4. Contractor Instructions

Provide a detailed estimate covering materials and labor. Confirm site measurements before final quotation. Discuss material brands, construction schedule, milestones, and payment terms with the client.

5. Special Notes

The reference images are inspiration only and do not represent an exact mandatory design. The contractor should inspect the site and discuss feasibility with the client before execution.
